Notes for My Paper

Don't forget to include examples of topicalization. They look like this:
    Topicalization from sentential subject:
7a John$_i$ [a kltukl [el **l-**oltoir er ngii$_i$ a Mary]] **R-**clear COMP **IR**.3s-love P him   John, (it's) clear that Mary loves (him).

How to handle topicalization

I'll just assume a tree structure like (1).
    Structure of A′ Projections:

iCP		iii iiii iiiiv iiiv
iiSpec	iiiC′	
	ivC	vSAgrP

Mood

Mood changes when there is a topic, as well as when there is WH-movement. *Irrealis* is the mood when there is a non-subject topic or WH-phrase in Comp. *Realis* is the mood when there is a subject topic or WH-phrase.
